

Name	SHAREOWNERS' GEOGRAPHIC DISTRIBUTION
Authors	Dr. L. C. Gupta, Naveen Jain, Yash Kulshreshtha
Year	1994

CONTENTS

1. OBJECT, SCOPE AND METHODOLOGY

Main object
 Three aspects of geographic analysis
 City-wise analysis
 Over 1000 places individually analysed
 Urban-rural analysis
 State-wise analysis
 Uses of analysis for marketing
 Why relative distribution data holds the key
 Shareowner incidence
 Methodology and sources of data
 Steps involved
 Distribution by head-count and value of holding
 The sample
 Sub-samples and weighted average
 Derivation of weights
 Layout of the study

2. CITY-WISE DISTRIBUTION OF SHAREOWNERS

Introduction
 Pocket of concentration
 A reflection of undeveloped market infrastructure
 The trend of change
 All metropolises losing in percentage terms
 Non-metropolitan places gaining
 The engine of wider distribution

Shareowner and unitholder
comparative geographic distribution
City-wise estimated number of
shareowners
Shareowner incidence
Concluding remarks

3. **DISTRIBUTION OF SHAREOWNERS BY
SIZE-CLASS OF CITIES**

Introduction
Main findings
Regional sub-samples compared
Shareowners incidence
Change in shareowner incidence
since 1983-84
Role of indirect shareownership
Concluding remarks

4. **STATE-WISE DISTRIBUTION OF
SHAREOWNERS**

Ranking of states
Recent changes
State- wise number shareowners
State- wise shareowners incidence
Regional distribution

5. **DEBENTUREOWNER GEOGRAPHIC
DISTRIBUTION**

Introduction
Debenture-types
Debentureholder samples
The findings
No reduction in concentration
Unpopularity of NCDs

6. **THE “REGIONAL PULL”**

Meaning
Empirical analysis
Implications for marketing
